Thames Valley Chief Constable: **John Campbell.** *Mr Francis Habgood (retired)*

Dear Chief Constable,

I just found out Francis Habgood retired as I last dropped him a letter in February of 2018 and I may have said it would be the last so I smile as I write. I hope he is having a more relaxed and peaceful retirement than we have had the last 5½ years, but truly this will be the last Mr Campbell. Dominic Grieve QCMP eventually assisted forcing the covering up VOA Chief Executive Melissa Tatton to have to respond as they would not respond to us. She broke the Civil Service Code of Conduct, she wasn't honest, but they have been breaching it for years, she has now "stepped down"

The old boys club, or in Mrs Tattons case the old girls club one presumes obtained another taxpayer funded post with Ofcom, but at least she didn't get back to H.M.R.C where she held a senior position and Jim Harra the Head now of H.M.R.C said he was sorry to see her go. Well we were not and she and her predecessor Penny Ciniwicz both knew what was happening to homeowners & tenants and now our businesses, but worse, even before her staff arrived in our community in 2015 to scam and abuse us where needed. And abuse we experienced, our incapacitated and innocent neighbour & us

The avenue to seek justice via our Police (**blocked**), the Magistrates (**gagged**) Parliament couldn't help due to (**protocols**) so remain inactive, the peoples complains path (**corrupted**) our Government (**silent & inactive**) the High Court we were fraudulently forced to via rigged colluding Tribunals (**unaffordable**) so easy to understand how the V.O.A have been getting away with these scams, they have been invulnerable from the people the Homeowners haven't they? We haven't seen our new MP for a year now, who has been as silent as the grave. How do we know the covering up is not just carrying on, *we don't and enough is enough I think.*

Those who were swindled and are paying goodness knows how much extra, given our examples £450 a month up from about £225 and the many thousands upon thousands of pounds being extorted from our friends and neighbours for 47 years over at the Farm. And later their bank accounts were cleared out, that time a civilian scam, yes they have been unfortunate and too trusting, but after over a year all those funds have been restored by the Bank but again not without a bit of stress and a fight.

The VOA forcing those who raise any form of protest, but you only just need to ask a few questions to be channelled to one of their corrupt Tribunals forced to a "point of law" but it was lawlessness, what hard working family, tenants could take them to the High Court, but our National Supermarkets & food shops combining together and on behalf of hundreds of small England shops, did didn't they? It's only gone this long as I felt strongly about the public's trust and respect for our Civil Service and our Public Servants but that has all gone now and its out to the people lock, stock and all the very unsavoury bits as fraud is rarely without some and you would know Chief Constable.

Keep well John Campbell and you too Nigel and thanks once more to that young constable at Maidenhead those years back, at least he was sympathetic and understanding. albeit a bit taken aback of our circumstances as he too was a council taxpayer he said, when after a few days he informed me you chaps were essentially handcuffed to the railings and could do nothing, my words not his, as termed "civil" but civil it hasn't been.

Yours Sincerely

Mr & Mrs N R Gardiner & Mr & Mrs AF Boshier

"The biggest disease is corruption. The vaccine is transparency."
