Secretary of State for Health and Social Care

26th June 2021

**Department
of Health &
Social Care**

Dear Mr. Hancock MP,

Well further to my letter 11th June 2021 a copy below and despite the P.Ms alleged rhetoric that you are fu***** hopeless and Dominic Cummings airing his strong views about you, I and many others I'm sure were very grateful you stuck to your post and thankful for what you have done during the pandemic, despite some errors as have others with what was an unknown early on.

It appears you have let yourself down not by the social distancing focussed upon, as then the G7 are equally guilty as many of us are every day, although mostly inadvertently. But not only yourself, your wife and family and the Country too, but not our ever forgiving Prime Minister, who since you apologised considers the matter now closed. Like it or not MPs and members of Government are expected to set an example to society and our permanent Establishment too

Although the Valuation Office Agency, the Tribunal Service, have never apologised to those they defrauded and abused for these termed fraudulent (unwanted council taxes), the Whitewash Adjudicator, the P.H.S.O and the H.M.R.C Serious Misconduct Panel for the attempted covering up of those crimes as that is what they ultimately were. Although the Ombudsman cited "insufficient powers" as their excuse, and remembering the Police did apologise they were powerless to act over the one word of civil, but none of it was "civil" Mr. Hancock, none of it.

Maybe the Valuation Office Agency and their conspiring accomplices have already apologised to the Prime Minister although not to my wife and I as after 5.9 years he would seem to have also considered as P.M heads of the Civil Service and H.M.R.C with those involved, that the not so small matter of his abusive and fraudulent civil servants paid from the public purse scamming homeowners is **closed** too? Well it may be for Mr. Johnson and others, but not for us or society either I expect, given no apology.

What you and your aide did is no less than many others Mr. Hancock, the past is littered with errant MPs not only Tory's and to err is human as I have said especially concerning some of our more basic instincts, but to do it at work at public offices and be filmed doing it must indicate some poor decision making and judgement after all, as Mr. Cummings clearly implied, but I will leave for others to make their own minds up.

Yours Sincerely

Mr & Mrs NR Gardiner + 4 neighbours
